Dear Commissioner:

Having learned about the damaging effect on human lives caused by the use of medically useful antibiotics in animal feed, I am asking that you make every effort to support legislation that would outlaw this dangerous practice.

As I am sure you are aware the Center for Science in the Public Interest has filed a petition with the FDA asking that the use of antibiotics in raising animals for the food market be banned. I fully support this petition, and trust that your own efforts will bring about the necessary change.

Thank you for your consideration.

Very truly yours,

Jean McGarty
